You can see the beautiful scenery of Mt. Fuji from there if the weather is clear.

Kunozan Toshogu Shrine

<https://www.toshogu.or.jp/english/>

This is the founding shrine of all “Toshogu” shrines in Japan and is the only national treasure building in Shizuoka Prefecture. This is a shrine dedicated to Tokugawa Ieyasu (whose main shrines include Toyotomi Hideyoshi and Oda Nobunaga), and the attached museum exhibits the famous swords Sohayano Tsuruki and Kinda. The museum has a large collection of beautiful items, Western clocks, items used by Prince Ieyasu, and extremely valuable treasures of successive Shoguns. (From official X account)
